

Printing to PowerRIP 2000 from PageMaker 6.5 using Win 98, 2000 & Me

Note: - Before you print from PageMaker you must copy the appropriate PPD for your printer from the US folder in the PPD folder in the PowerRIP 2000 folder on your hard drive to **PM65>RSRC>USENGLISH>Ppd4**.

- It is assumed that a PageMaker 6.5 file is on the screen and ready to be printed.

Step 1: Go to **File>Print**.

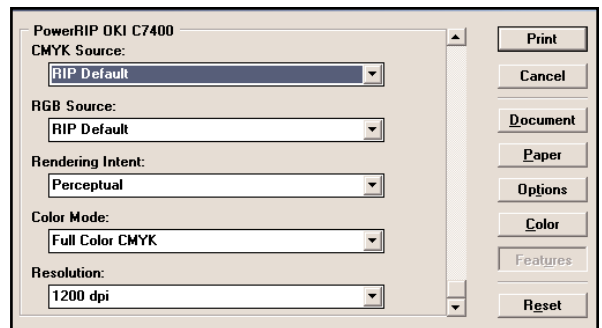

The Print Document dialog will display.
Select your printer in the Printer pull down.
Select the appropriate PPD.

Step 2: Click **Features**.

The Print features dialog will display.
Select the **Features** appropriate for your needs.

For an in-depth discussion of all the available features for your printer see Chapter 9 of the PowerRIP 2000 manual.
Note: This is a scrollable dialog.

Step 3: Click **Color**.

The Print Color dialog will display.
Select **Composite** Color.

Click **Print**.
If this is the first file you are sending, PowerRIP 2000 will automatically launch, process, and print.

Auto launch will only happen if you have installed PowerRIP 2000 on your c:\ drive. If it is installed on any other drive, you will have to manually launch. To manually launch go to Start>Programs>PowerRIP 2000>PowerRIP 2000.
